Mr. William Brewster
Dear Sir.

Will you kindly tell me whether or not you have any of the young of Cathartes mexicanus conspersus, — If so when and where did you describe them. I have just returned from Texas with a small series, and among them some young in first plumage, — if not already described I wish to do so in the next auk. —

Very truly yours.
Ernest Ashmead.

Mr. William Brewster —
Dear Sir.

Some time since I sent you a skin of Catherpes mexicanus guar. you offering to exchange the young of punctulatus for it, you acknowledged receipt of same, stating that what you had taken to be punctulatus was in reality C. mexicanus, and asking if I had any objections to accepting that instead, I replied that I had not, — afterwards writing again and asking if you would object to giving me a specimen Helminthophila pinus, or H. celata

in exchange. – Since then I have heard nothing from it, nothing has come to my address in Washington, what is the matter. If the Helminthophilus are not a fair exchange, kindly send a good adult Salpinctes obsoletus, and send to my address 1318 N. St. Washington D.C.

Very truly yours.

W. W. Worthington.

Mr. William Brewster.

Dear Sir:

I am preparing a paper on *Campephilus principalis* to read before the A.O.U. and take liberty of writing you for what information you can give in regard to it's occurrence throughout the region it is known to inhabit. Will you kindly give me records of capture, together with remarks as to comparative abundance or scarcity, - and in fact any information that you think will be of value. - Any favor I can do in return will be most cheerfully rendered. -

Very respectfully.

E. W. Hasbrouck.

Mr. William Brewster

Dear Sir

I have reached a stage in my work on the color of Screech Owls, where it is absolutely necessary that I have a map showing the distribution of the "asio" group. Will you kindly designate on the enclosed map the areas covered by the sub-species recently described by you. Naturally you are better able to do this than any one else, and I will gladly acknowledge in the text the assistance rendered. In Texas kindly show the distribution of mccallii and aikeni, as having seperated them you are best able to judge of the country covered by each.

Very truly

E. M. Hasbrouck.

Mr. Wm Brewster.
Dear Sir.

Would you kindly take the trouble to send me a list of all specimens of the genus Myiarchus in your possession with localities. I am engaged on a paper on the geographical distribution of the genus, and such information will be of material assistance. I have recently received two specimens of Screech owls from the Big Pine reservation in Idaho. Can you tell

Mr. Wm Brewster.

Dear Sir.

Some time since I wrote you inclosing stamp for reply, - requesting credits of coins of all denomination of Wegner coins in your collection north of Panama. Am afraid the letter miscarried, so write again. Will you kindly send the information as soon as possible as I want to embody it in my work on geographic distribution.

Very truly.

E. M. Hasbrouck
